8 Port AI PoE Switch

- AI extend: 1-8 ports support 250 meters long distance power supply (should be use cat5e or cat6 cable)
- AI VLAN : Isolating ports 1-8 to each other can effectively suppress network storms and improve network performance
- AI PoE: Automatic detection power of port, power off and restart the device if find dead device
- Support wireless access points (Aps) and network surveillance cameras via Cat 5 cables
- Support IEEE802.3af/at standard PD device
- Supports uplink port auto-flip (Auto MDI/MDIX)
- Adopt store-and-forward exchange mechanism
- With power circuit protection, it can protect the security of the back-end equipment
- Zero configuration feature power is automatically supplied to the adaptive device
- Support port no link power saving function
- No fan design to achieve energy saving and environmental protection

PoE Network Switch

on table replacement warranty

Network parameters

- Port number : 8
- Port type :10/100 Mbps RJ45 ports
- Standard :IEEE 802.3u
- Forwarding mode : Store and forward
- MAC address table : 1 K
- Packet forwarding rate : 0.744 Mpps
- Shell : Poly Carbonate
- Dimensions : (8 PoE) 170 × 101 × 37 mm
- Operating temperature : 0°C~40°C
- Storage temperature : - 40°C~70°C
- Operating humidity : 10%~90% RH non condensing
- Storage humidity : 5%~90% RH non condensing
- Power supply : 12V DC,
- Weight : 8 PoE (350gm)

Functions

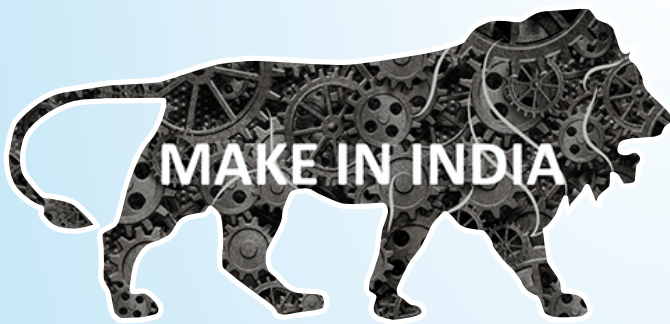

Better Connectivity

- This PoE Switch has designed for outstanding power with flexible placement for better and advanced connectivity between network devices.

Switching Performance

- This PoE Switch offers the forwarding capacity to simultaneously process traffic on all ports at line rate without any packet loss.
